

Hoover Happenings!

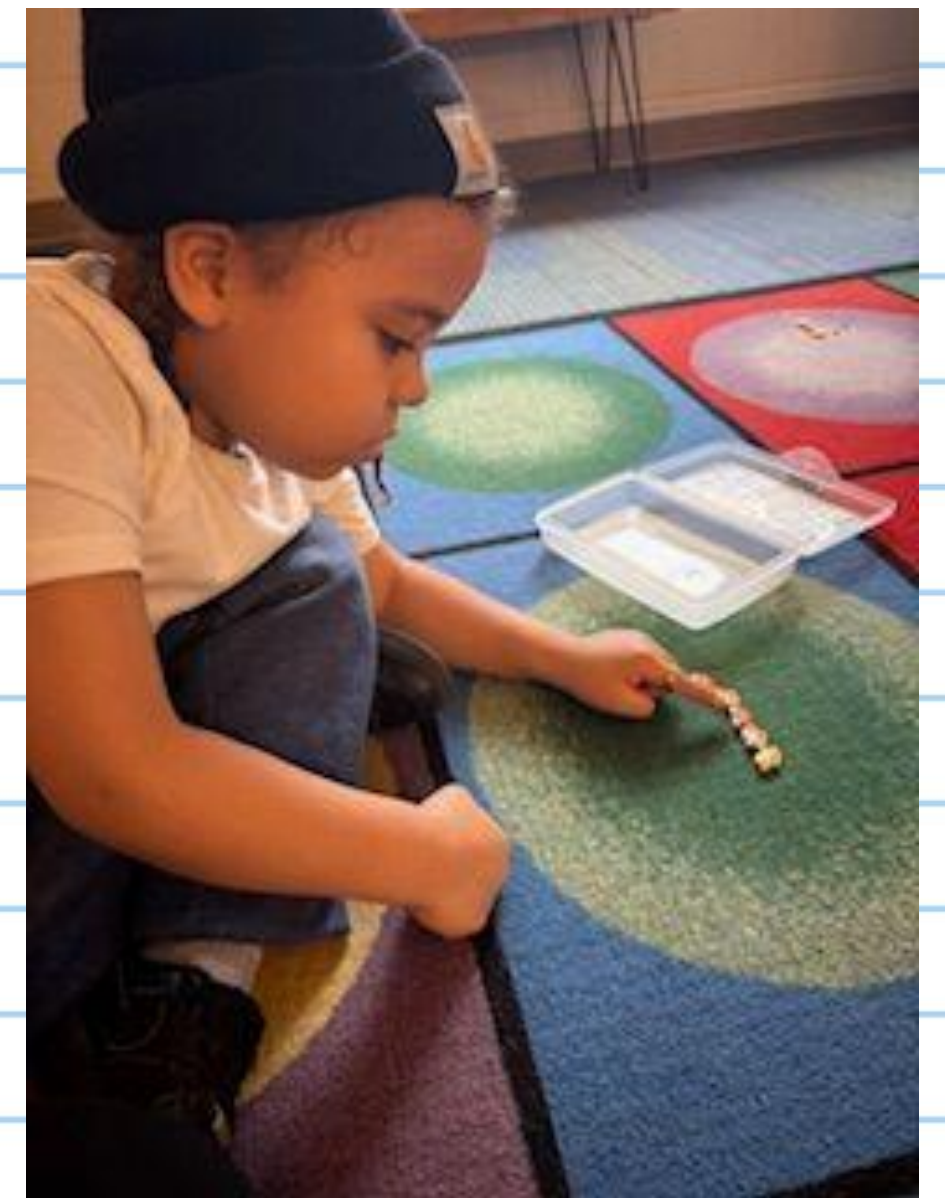

Week of 1/5/26

Mrs. Wohlfeill

Kindergarten is working really hard and counting forward AND backward with numbers 1-20! Counting backward from 20 can be really tricky but they are doing a great job!

Mrs. Gorski

Pictured below are some of my **AWESOME** kindergarten readers reading and highlighting important power-words. They are so studious!!

Mrs. Hughes

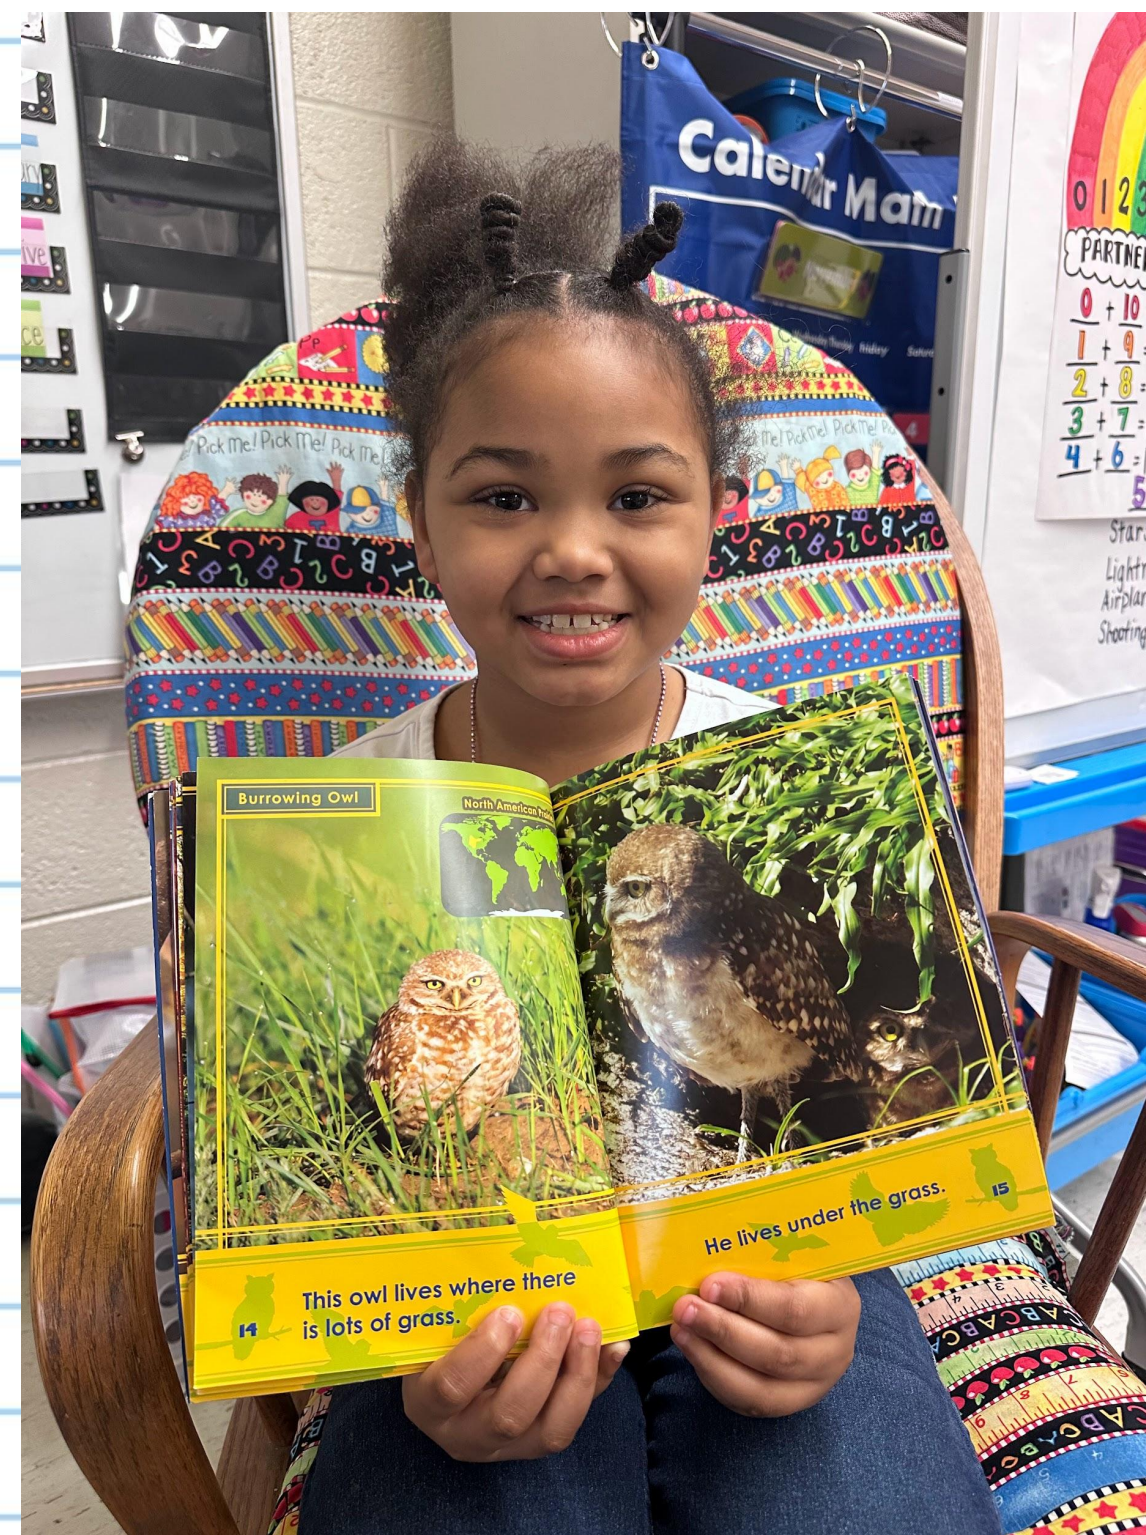

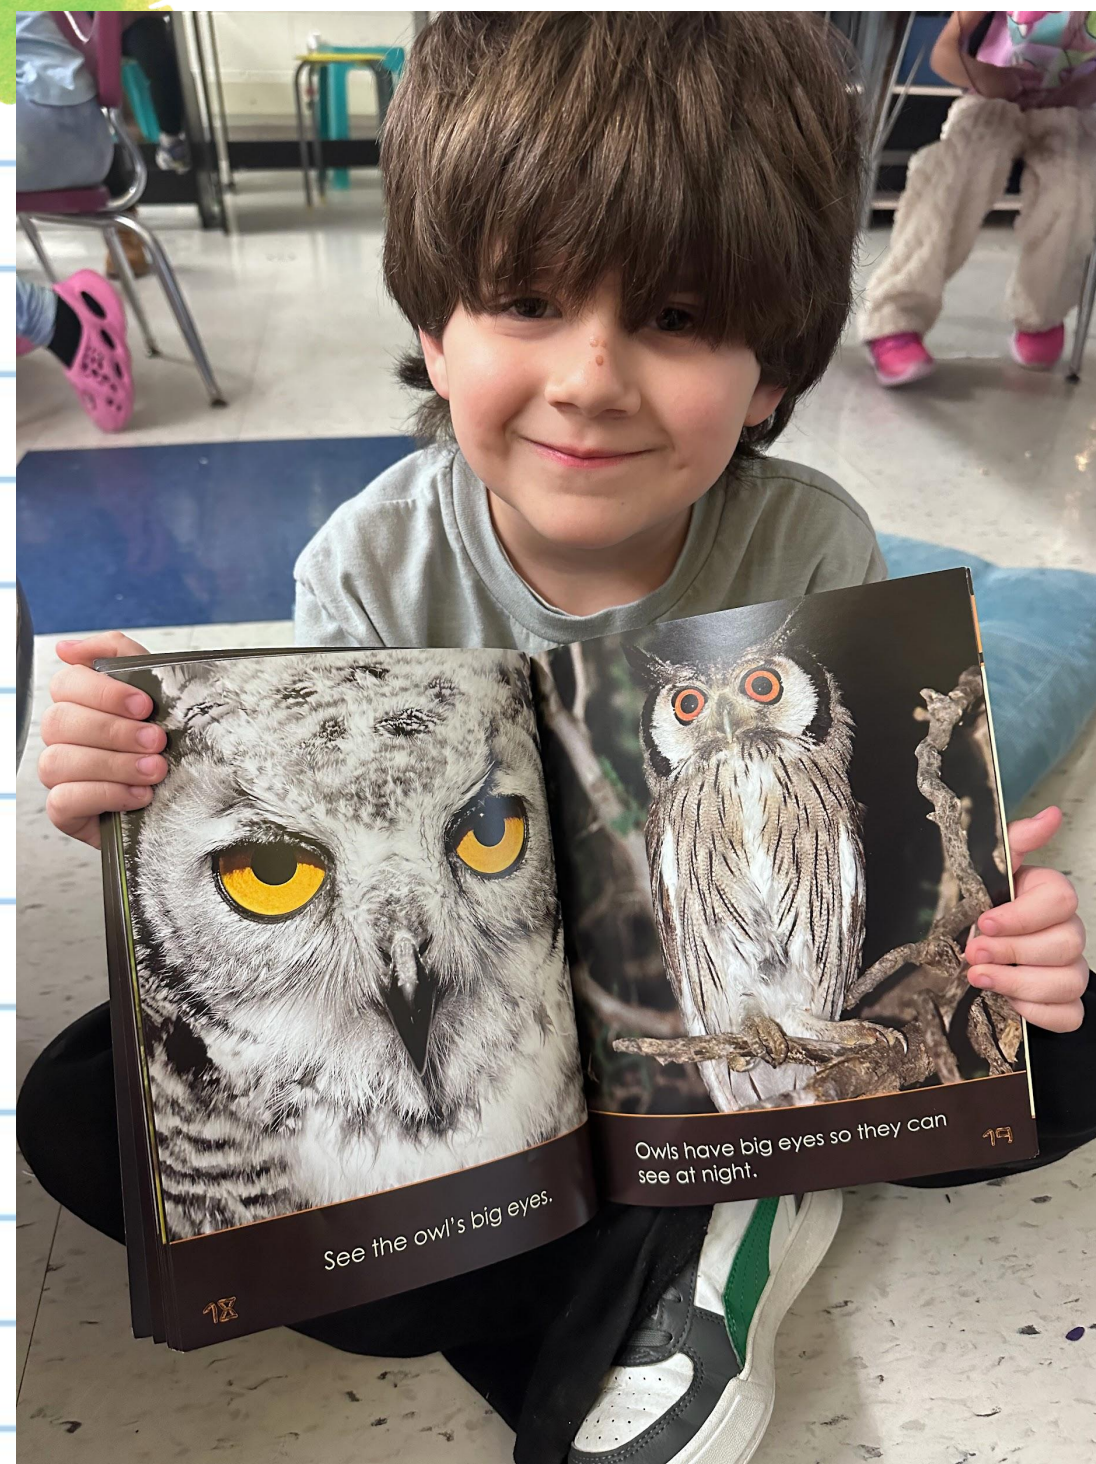

We took some time to read
with our buddies.

Mrs. Becker

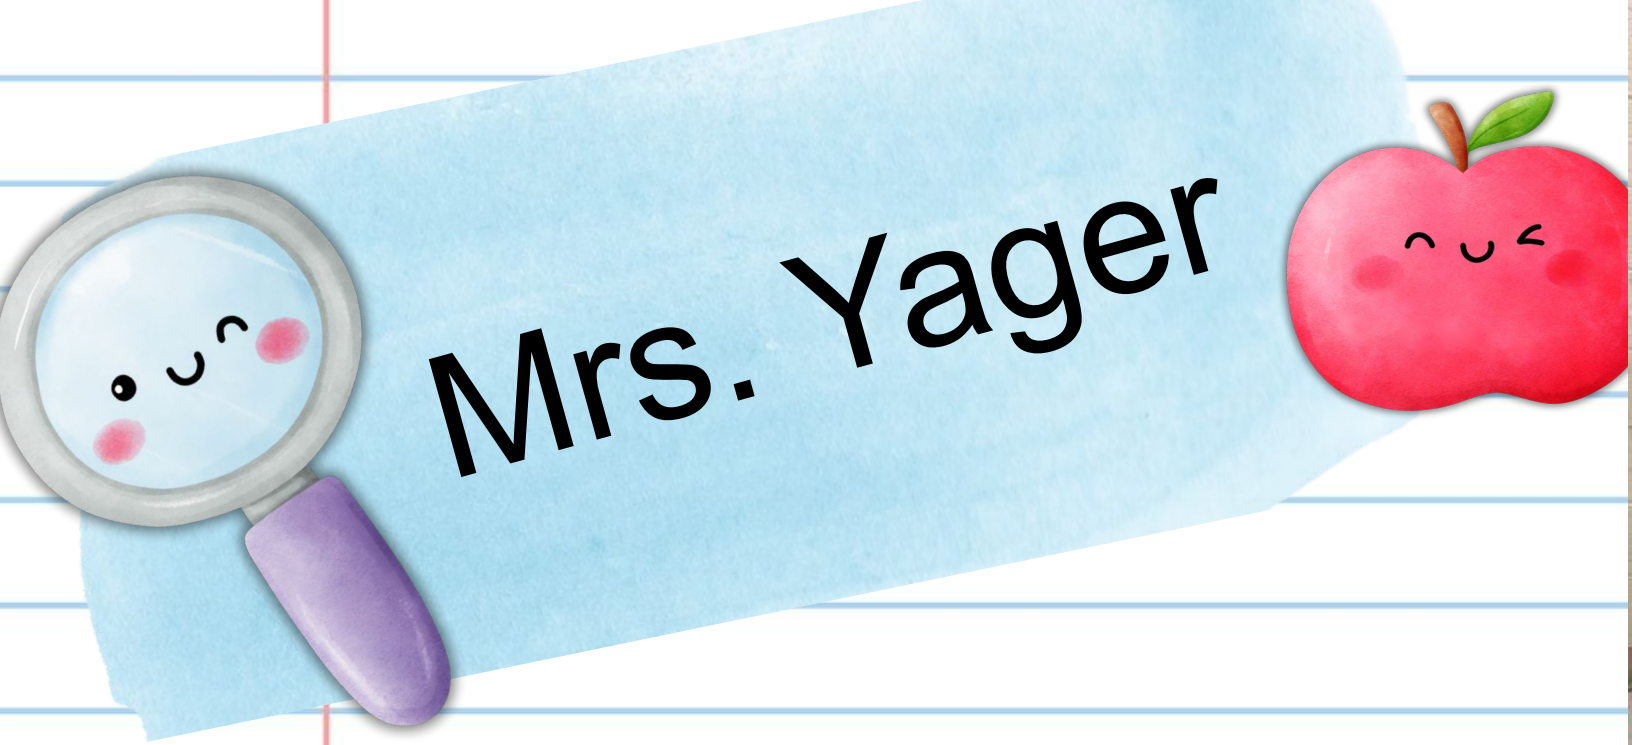

We have been hard at work, learning all about owls!

This week we had fun making balloons and writing our New Years Goals on them!

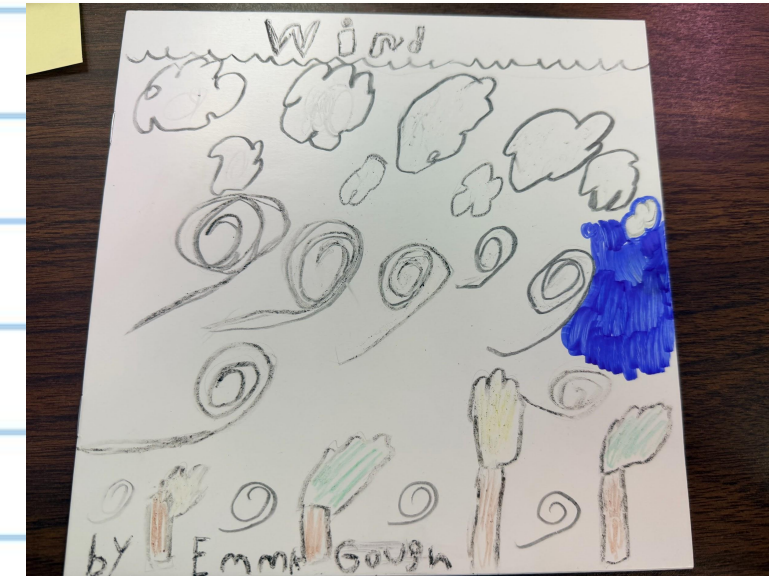

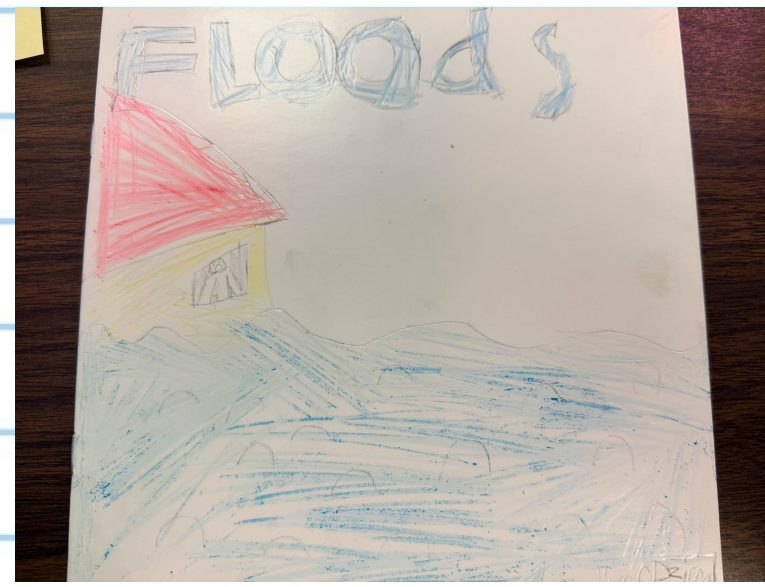

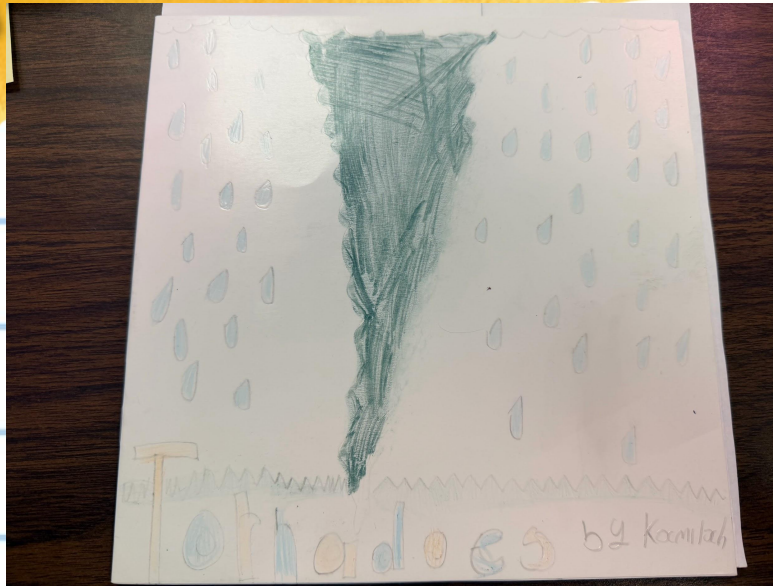

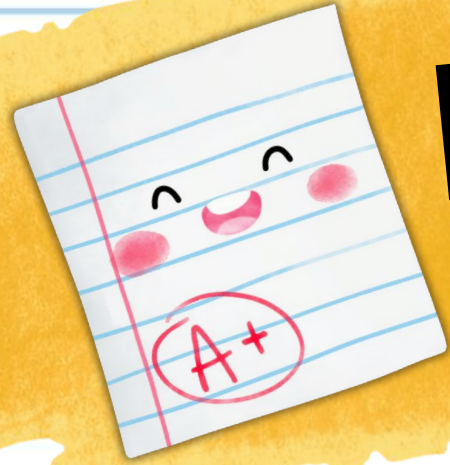

Before break we enjoyed painting Holiday ornaments with Ms. Pam!

Mrs. Suder

We have been working very hard on finishing up our informational books. We can't wait to show them off and share everything we learned about weather.

Ms. Williams

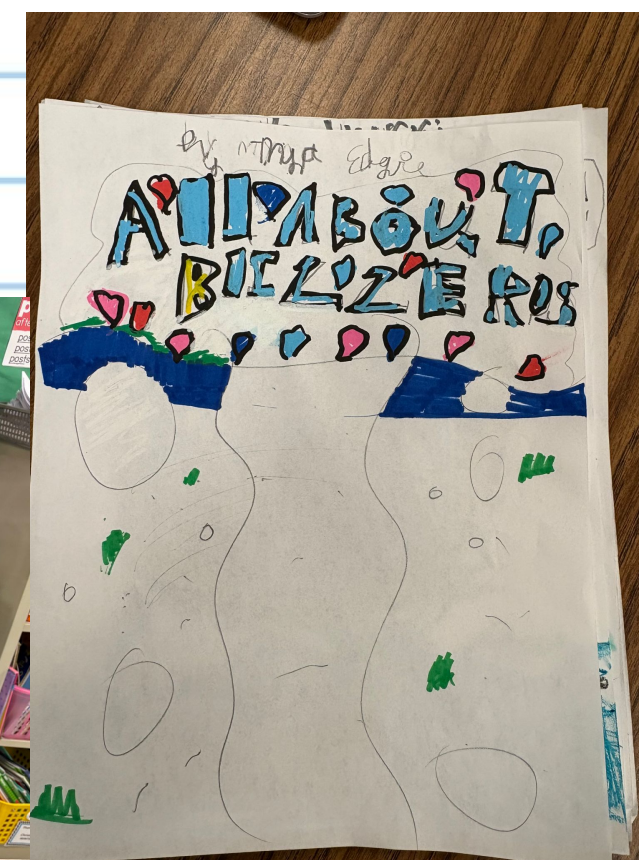

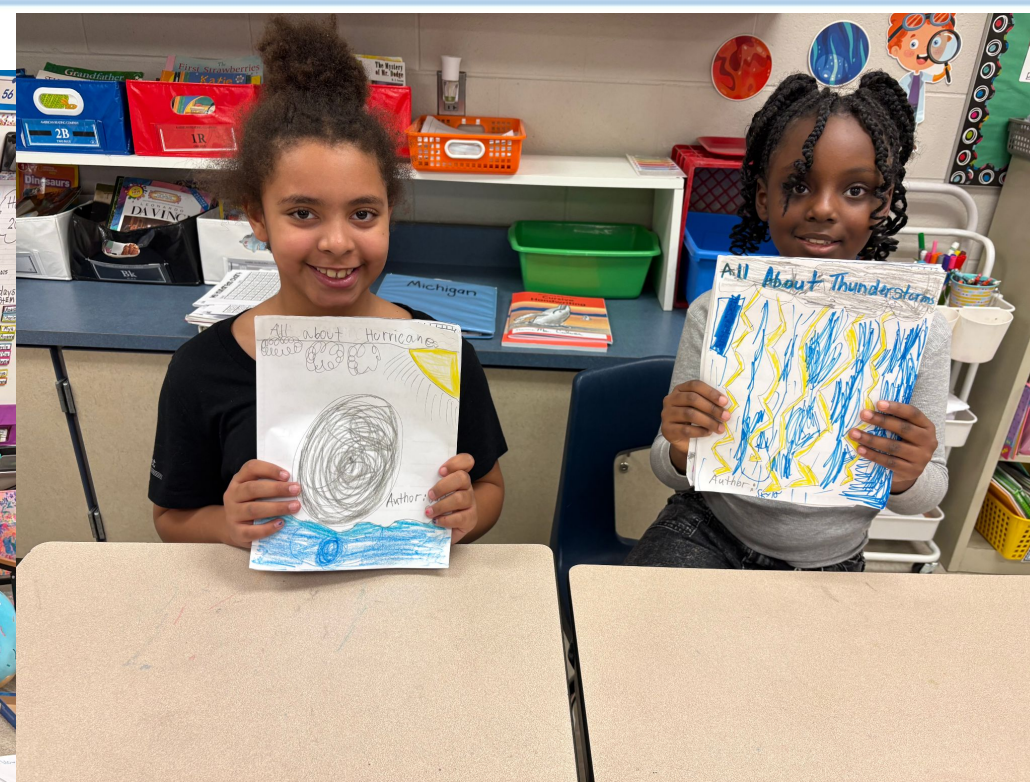

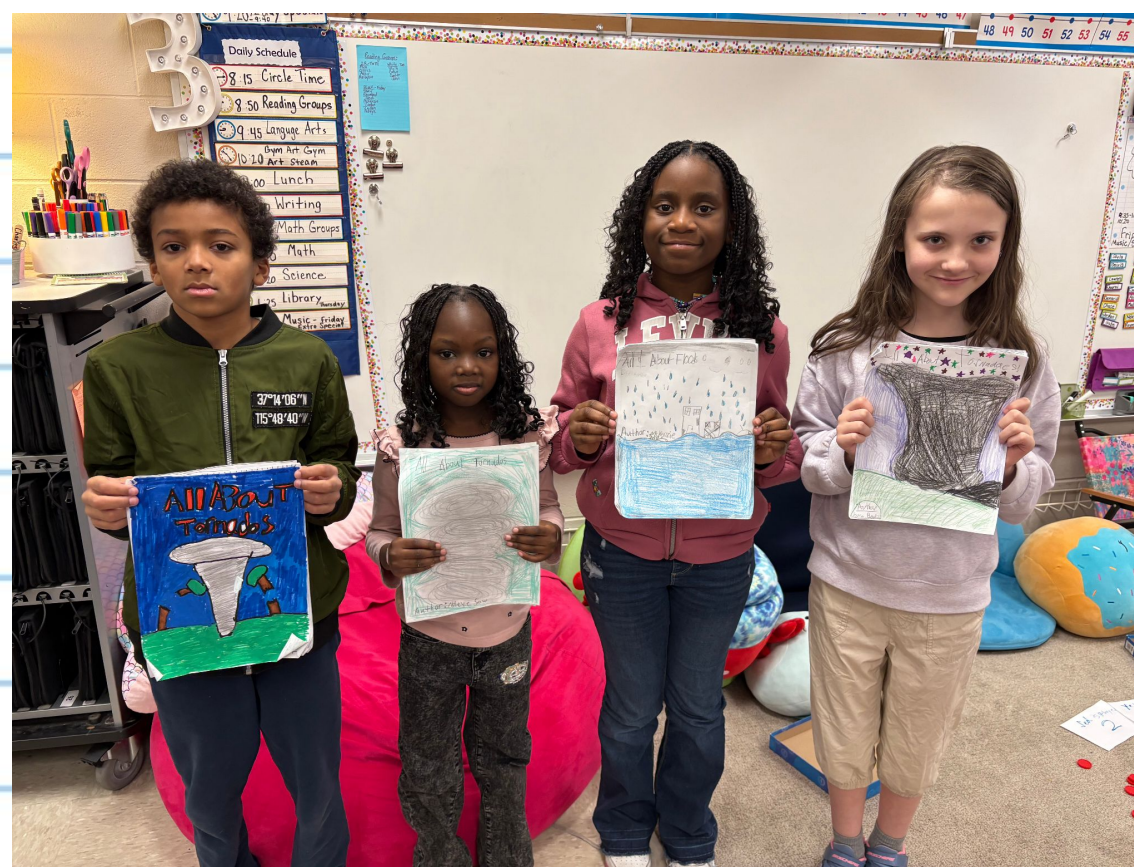

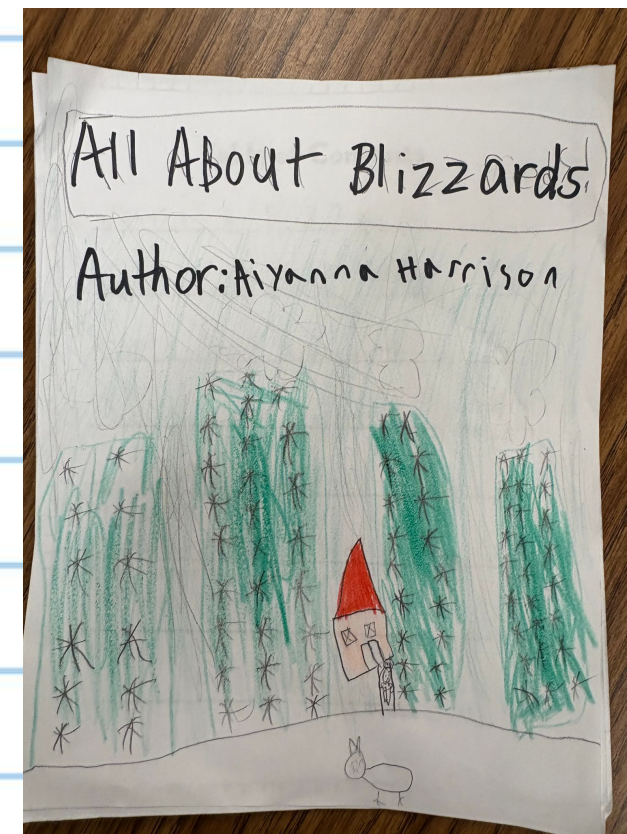

This week we went to the sensory room to explore all the new sensory items. We played with playdoh in the classroom. We had a lot of fun this week.

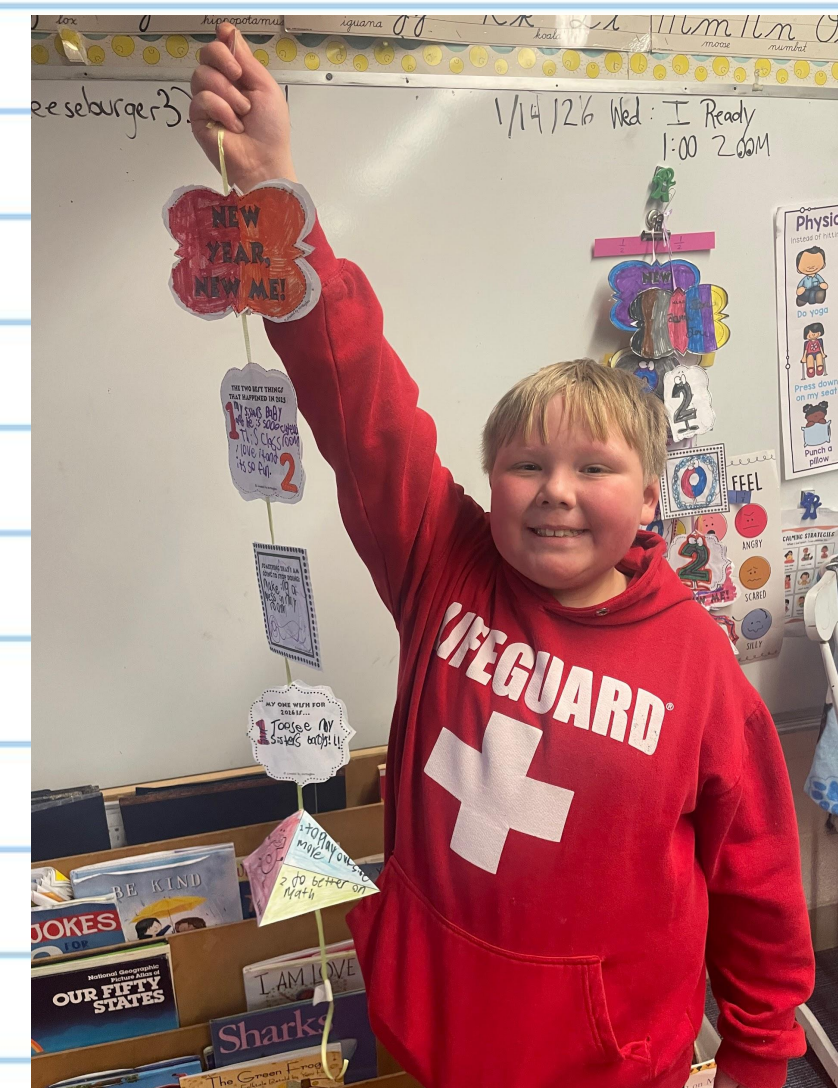

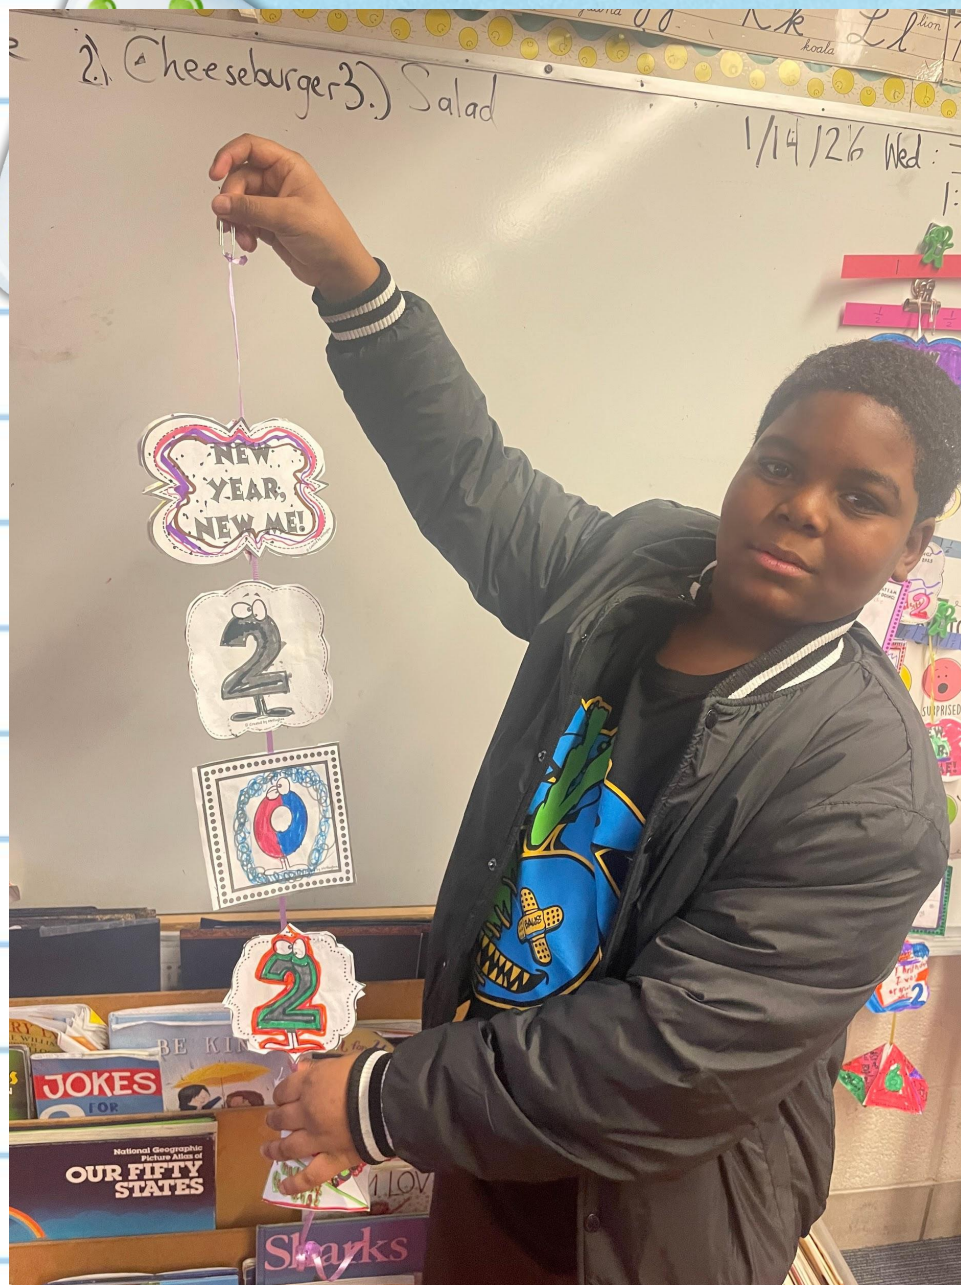

Ms. Culver

This week we made the final touches on our writing project. We are very excited to show them off. We also made a cute snowman on Fun Friday!

Ms. Johnson

New Year, New Me!

Mrs. Houston

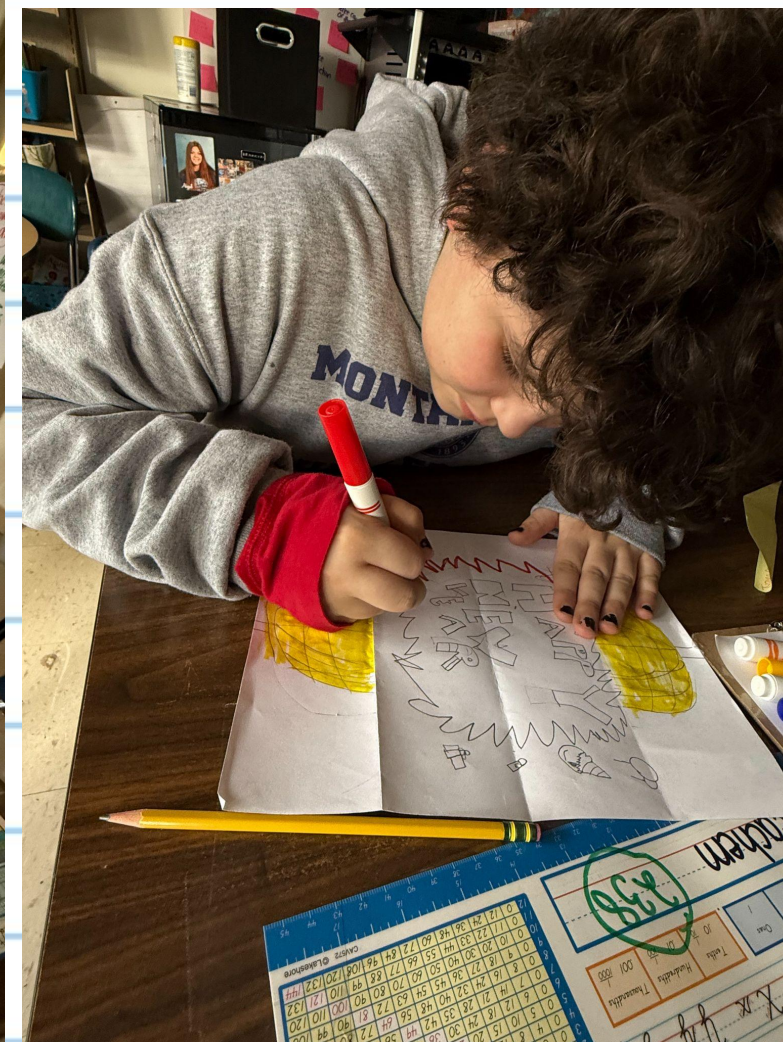

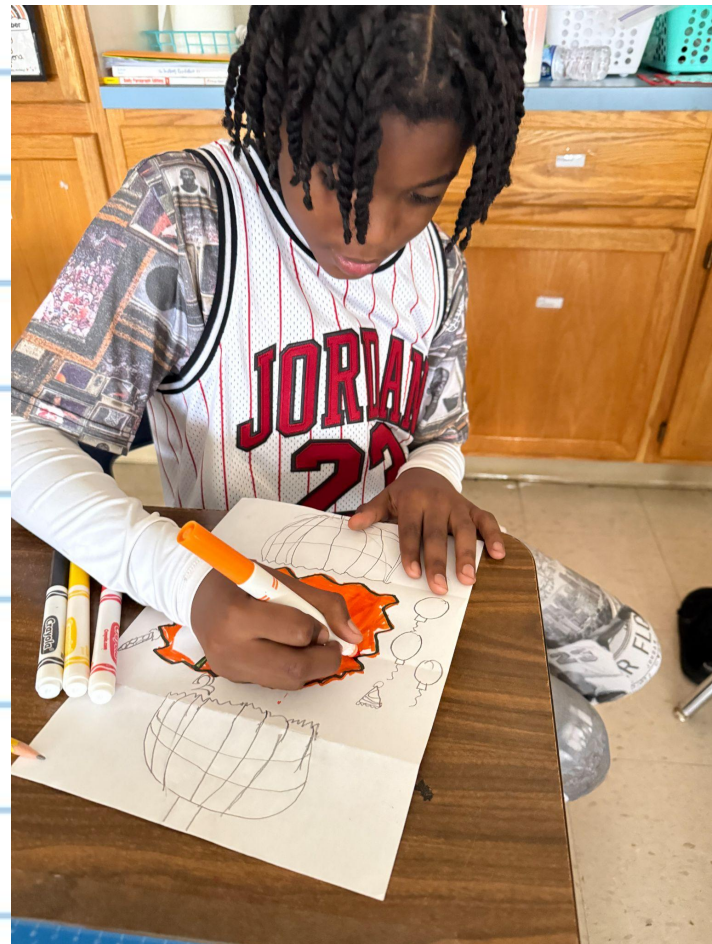

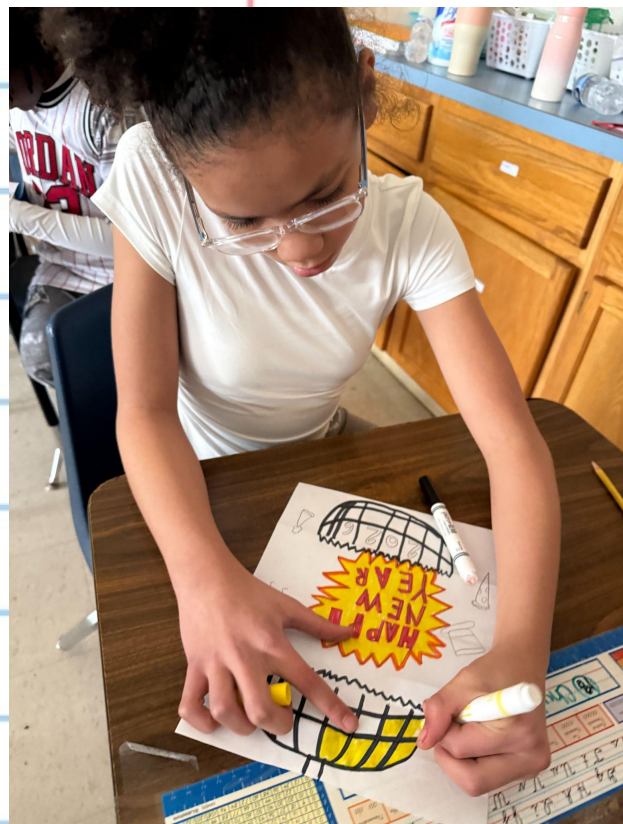

Hopefully all my wonderful, unique students had a relaxing break and enjoyed all their favorite things like their signs said. Welcome 2026, let's GO!

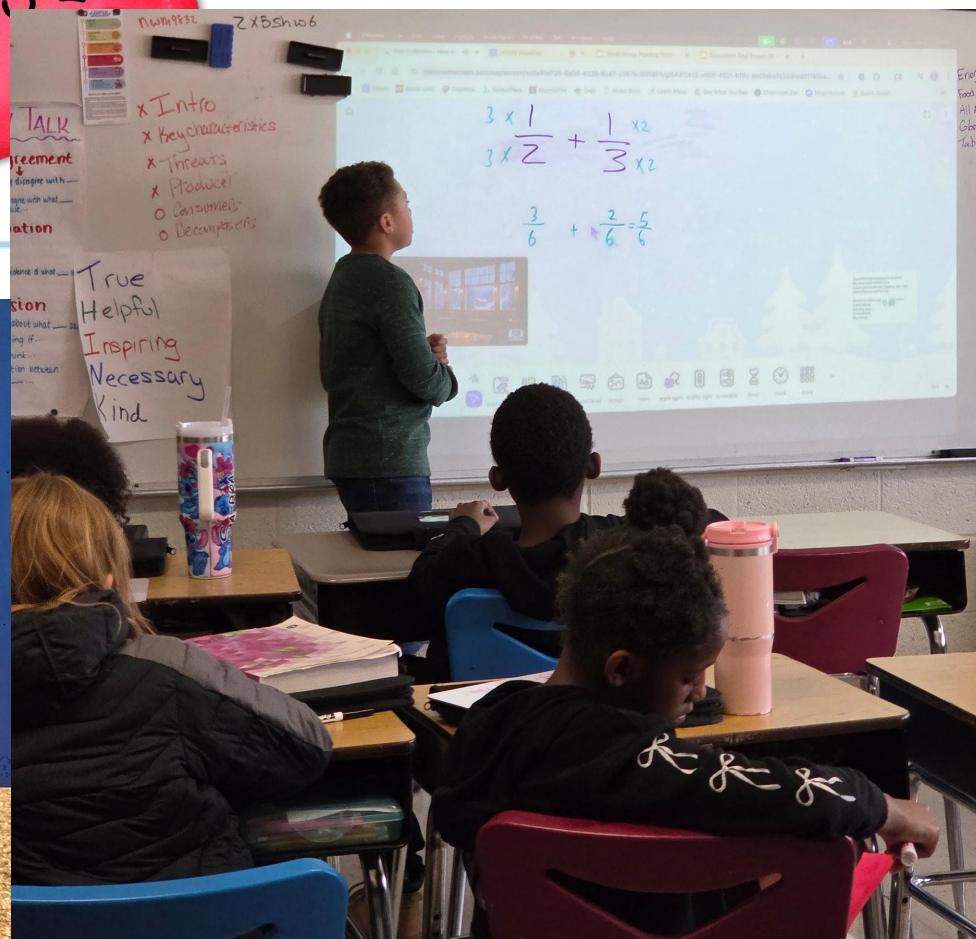

Ms. Klecha

This week, students reflected on 2025, created goals for 2026, and ended the week with drawing a New Year's Ball Drop! In addition, they have worked so hard on their research projects as well as adding fractions with unlike denominators.

A few throwback photos, and some recent 2026 ones. We are moving forward with fractions and learning to add mixed numbers and having a blast with crafts. The weather is ever changing and recess is unpredictable so we will enjoy every second we can outside!
